## Objective

To teach users the concepts of building information modeling and introduce the tools for parametric engineering design and documentation using Autodesk Revit MEP 2010. Users should be able to complete their first Autodesk Revit MEP project after completing this class.

## Prerequisites

New Autodesk Revit MEP users, users of AutoCAD MEP, or other Autodesk software users who want to learn essential elements of Autodesk Revit MEP.

## Topics Include:

- Building Information Modeling
- Revit MEP Basics
- Viewing the Model
- Starting a New Project
- Defining Volumes
- Building Performance Analysis
- HVAC Systems
- Piping Systems
- Plumbing Systems
- Fire Protection Systems
- Electrical Systems
- Working with Architects and Engineers
- Detailing and Drafting
